The entertainment given on Thursday evening in the vestry of the Pleasant Street Congregational church by the Young People's Christian Endeavor society, in aid of the organ fund, was successfully rendered. occurred on Wednesday at midday in the Church of the Immanual, Boston, where the contracting parties were Miss Grace Frances Ordway formerly of Arlington and Mr. William Horace Chapin of Springfield. The bride was gowned in crepe de chiene, and wore a bridal tulle veil, carrying a bouquet of lilies of the valley. Miss Ordway came down the broad aisle of the church leaning upon the arm of her brother-inlaw, Dr. Woodbury, to the suggestive music of the organ. The bride's two little neices, the Misses Esther and Ruth Woodbury, who were attendants of the bride, wore white dotted Swiss muslin with pink trimmings. The wedding breakfast was had at the Brunswick. Among the Arlington friends present were Judge Hardy and family, Mr. and Mrs. Sears, Mr. and Mrs. Elliot, Miss Babson, Mrs. Wellington Hardy and Miss Hardy, Miss Grace Gage. Thursday evening, Nov. 16, will be gentlemen's night, and Mr. Edwin D. Rood, who was director of the famous Hindoo jugglers at the World's fair, has been engaged to give the evening's entertainment. Mr. Rood has appeared before the leading clubs of this country and England, and he ought to make the evening exceptionally enjoyable.

The entertainment committee has nade arrangements with the famou Criterion club of Boston to give under the auspices of the Boat club a dramatic entertainment entitled "A Night Off." This entertainment will be given in the Town hall, Jan. 9. and it is the intention of the entertainment committee to charge an admittance. By so doing it is expected to defray the expenses in-curred by giving attractions at the club house during the season. Consequently we hope the members will keep this date in mind and open, so that a large Arlington, Mass sale of seats may be insured.

On Thursday evening a reception wa given the Rev. Mr. and Mrs. Fister in the vestry of the Universalist church, by the church and society of which Mr. Fister is pastor. The room was tastefully decorated with palms, garlands of laurel, chrysanthemums and white lilies. What was termed the "cozy room" arranged and fixed up in one corner of the room, attracted the attention of everybody, and well it might, for in itself it was an underscored invitation for one to choose his fair partner and retire to the "corner" with its pleasant surroundings and have a chat upon subjects of mutual interest. The committee on decorations were the following: Mrs. William H. The reception on Thursday evening to Mr. and Mrs. Fister was only one of those pleasant outcomes of a religious denomination which believes that God made this magnificent world of ours for just such beings as we are, and what is better than all else, that He has another world, an improvement on this, in keeping for us. With such an acceptance of what is, and with such a glorious faith of what is to be, why shouldn't our Universalist friends be social and happy? A VERY QUIET ELECTION.

MR. CROSBY AND MR. HUNTREESS HAVE THE CON-FIDENCE OF THE PEOPLE WHO ELECTED THEM. BOTH FAITHFUL OFFICIALS IN THE VARIOUS OFFICES THEY HAVE HELD.

HON. FRANKLIN E. HUNTRESS.

Tuesday was an ideal election day. It was Huntress and Crosby weather in every way. The day brought no surprises as there were none to bring. Lt was a foregone conclusion weeks ago who would be our next senator and representative. . The citizens of the town were perfectly satisfied with J. Howell Crosby's year's work in the lower house and were only too glad to have him succeed himself. The people of the senatorial district were equally eager to have Franklin E. Huntress serve in the upper house, for with such men in the State House they knew their interests would be honestly and faithfully looked

The voting throughout the day was light, and when the polls were closed only 657 had improved the greatest privilege an American has.

The counting of the ballots required but a short time and Chairman Farmer announced the following result:

For Governor. W. Murray Crane. Robert Treat Pine, Jr., Lieutenant Governor. William M. Olin. Henry Lloyd, Joseph J. Flynn, John W. Kimball, Elbridge Gerry Brown, Attorney-General, Hosea M. Knowlton, Councillor, Third District. John W. Lucas, Senator, Third Middlesex District. Representative in General Court, 13th Middlesex District. County Commissioner, Middlesex. Do not forget that either on the very early morning of Nov. 15 or 16, there is to be a brilliant metcoric display in the heavens; so it will be in order that the young man who may be sitting close beside his best girl on either of the above mornings, turn down the gas, that they both may the better see these shooting stars, and yet we'll venture, that the most brilliant star the young man will see, will be the star beside him.

A special vesper will be held in the First Parish Unitarian church next Sunday evening, begining at 7 o'clock. precisely. The music wil be furnished by the quartette choir of the Orthodox Congregational church of Winchester, Mr. Joshua Phippen, director. An elaborate programme has been prepared, including an organ recital of 15 minutes and six numbers by the choir. At this service a collection will be taken up. The public is cordially invited.

Special music at the Baptist church Sunday evening will be an added attraction to the address to be given by Mr. Trueblood at the extra 7.30 o'clock service. Mrs. Flora Ames Anderson, formerly of the Fedette orchestra, will be present, and besides giving a violin solo at offertory, will play the obligato to "Dream ot Paradise," which will be sung by Mr. Groesbeck of Lynn, the bass of the choir. The choir will also sing "The Radiant Morn Has Passed Away" by Woodward; and "The King of Love My Shepherd Is" by Shelley. Mr. William E. Wood will preside at the organ. At the morning service the choir will sing "O God, Who Is Like Unto Thee" by Gale; "How Amiable Are Thy Tabanacles," Schnecker; 'Rejoice in the Lord, (alto and bass duet) Schnecker. Dr. Upham is to preach in exchange with Dr. Watson. Everybody is invited to both services The evening exercises should attract a large congregation.

Our Universalsst friends do not forget to observe the seasons as they come and go. We now have in mind the Harvest Supper which they had on Tuesday evening in the vestry of their church. The room was timely decorated with samples of the abundant harvest; upon the platform were stacks of the ripened corn, and vegetables such as only Arlington can grow. The supper was under the supervision of Mrs. Charles Coolidge, assisted by Mrs. Butterfield. Mrs. William Winn, Mrs. Wadleigh, Mrs. Joseph Ronco and others. During the evening, after supper, the Rev. Mr. Rice of Japan gave an interesting talk upon his work in that country, and then the Rev. Mr. Preble, distinguished as the "wit" of the Universalist Church gave a humorous and instructive offhand address. The Rev. Mr. Fister pastor of the church was exceedingly happy in his remarks. Mrs. Fister presided at the piano and rendered some choice selections. The church quartette rendered some of its best music. The evening was in every way a social success and did credit to that season of the year, when we are all expected to come "bringing our sheeves

WE CONGRATULATE.

We congratulate Representative I Howell Crosby upon the magnanimous vote he received here in his home town on Tuesday, and we congratulate Arlington as well, in having given Mr. Crosby substantially a unanimous vote. Out of a vote of 572 he received 569, only three ballots scattering, and those simply for fun. Mr. Crosby, when a man is all right at home, he is all right everywhere. The Enterprise extends you its right hand.

STILL REPUBLICAN.

Massachusetts is still republican by majority so large, that the minority is promise. It is the quiet unassuming not even a threatening factor in politics. Yes, Massachusetts is a thoroughly republican state, and she is always likely to be, so long as she holds Plymouth rock. Governor-elect Crane may well feel satisfied with his 65,000 plurality.

Ohio elects her republican nomiuee for governor by a majority of 20,000 more or less, so that Mr. McKinley is all right at home, and so is Brvan with his ro,000 or more majority in his own state of Nebraska. Bryan is still in the presidential race, with a stronger home backing than he had in 1896.

Maryland and Kentucky have both gone democratic, while Iowa remains true to her republican faith.

New York city is largely democratic, there being in the four counties that make up the greater New York, but one republican elected on the county tick ets. Croker by his superb management as a political boss, has defeated the re-election of Mazet, of that investigating committee notoriety.

The election as a whole points to a hand-to-hand fight for the presidency in 1900. While many have been insisting that William J. Bryan is a "dead stick," the truth has been all the while, and is at present, that he never was so two hearts that beat as one. THE SILENT FORCE. It is the silent force in nature th.

produces the greatest and most positive results. The quiet oncoming of the seasons tells more effectively than-does the earthquake and the whirlwind. This is the universal law, and it holds good without an exception. The man who makes the greatest bluster is the man who does the least. We see this truth too frequently illustrated in business life. We always suspect that man who is forever boasting of what he claims to have done, and of what he is able to do. That which is proclaimed upon the housetop, is seldom or never verified in the real work of life. Excessive pretensions in whatever department of life, are usually the biggest promising, is the one of all others, who most frequently fails to redeem his man who accomplishes the most. That work counts which is done without having any fuss made about it. It is the silent force that tells. We are forcibly reminded of this everlasting truth on this election day. Right in face of the noisy demonstrations made by our campaign speakers throughout the country, it is after all, the ballot that declares the results. And how silently these ballots fall! Neither McKinley nor Bryan can stay their work. And so it is the world over, that those forces which are the least demonstrative are the most effective. That individual who says little but does much is he to whom one may safely tie.

THAT "DEAREST LITTLE WOMAN."

That "Dearest little woman in all the land" has surely captured the greatest hero of them all, Admiral Dewey, or otherwise he would not have followed Mrs. Hazen so immediately to New York, but have allowed her to purchase her \$7000 worth of wedding outfit without being drawn aside from her shopping tour, by those tangible and objective manifestations of love which are always considered to be in order by any found another compared with which all The republican party is to have no the honors of the world become as naught. Love is a great leveller. Unence, all men become very much alike. One may have conquered the world at the point of the sword, and yet that same one will gladly make a total surrender to a pretty and accomplished woman. We pity the man who has never been in love. These calls have come to be regarded as so much material to business. to be exchanged for a like kind, and even what is more ridiculous than all else, if the lady of the house is not at home to receive the goods, a personal card left with the servant, cancels all obligations. We wonder if there are est satisfaction too, those kitchen visits that were made in the earlier years in the home neighborhood, when we were recall, as we pen these lines, how the visit with the father and mother which he is a mighty good fellow to meet. counted something in all that makes domesticity. The good mothers of those days would usually bring along their knitting work, and so employ finers that were always busy in household duties, while they chatted with each other, in no way disturbed by the more or less heated discussions of the fathers, it may have been, upon some grave political subject. More or less frequently the conversation took a religious turn when "foreordination" and "election" would be discussed from A to Z, winding up the evening's talk on baptism, whether it meant immersion or sprinkling. Why, those evening visits as we remember them were often times whole political campaigns, as well as schools of theology. And this we say in all seriousness, for the fathers and mothers of a half century ago, were well informed upon all the current questions of the day, and way beyond the present

generation in all bible literature. The pleasure of those informal visits to call so long," for both hostess and most laughable and ridiculous thing about such a call is, that both hostess each as a matter of fact sees clearly t'irough the cheat.

> It is said by the old employes of the treasury department that never in its history have those engaged in clerical position, as well as heads of departments, been so prompt in reaching their desks. One reason for this, and the chief one, is that Secretary Gage and Assistant Secretary Vanderlip are sticklers for punctuality. Both walk to the department during the week, unless the weather is stormy, and the elevator conductor knows to a minute when to have his car at the bottom. When they are in town it is said that Mr. Gage and Mr. Vanderlip are at their desk exactly at three minutes before 9. This information has spread all through the

It is a singular experience for one who has long been a resident of New York to attend a town meeting where smoking is not allowed. But fortunately this is just the condition of things here in Arlington and in other localities of New England. On Long Island it would be difficult to see across any polling place on election day by reason of the dense smoke, and this too not always from the purest Havana. It has been for the past 15 years with the greatest possible reluctance that we have gathered the detailed election rewhere we have resided, for the reason that the returns have been in such a mixed or confused state, that it was always a good day's work to cipher out definite results for publication. But Town Clerk Locke has in his office everything in shape, so that the total vote for each candidate from the state ticket down, we took in 15 minutes. Mr. Locke surely does things so that results are easily reached.

There was one man made happy in Arlington this week. Mr. Weston of OFFICE HOURS: 8-10; A.M. 2-4 8-8. P. Cleveland street has been the organist at the old parish of St. Mary's in Newton, and the organ there is said to be at least 85 years old, and not, therefore, a particularly desirable one for an organist of Mr. Weston's ability. day and night at our police station. So interested have we become in that attractive specimen of a cat, that we have informed ourselves as far as possible of its history. It is something like three years ago that this maltese made its way to the police station, and begged permission, so far as its silent appeals could be understood, to be admitted and to be protected from the heartless treatment of the cold, cold world. The cat at the time of its entrance to the police station was a pitiful looking object. sentation speech accompanied the Presumably it had been ejected from many a home in Arlington, where it Mr. Fister made a happy reply of had vainly attempted to make its abode -so at last as a 'poor lone wanderer it made its way to Chief of Police Harriman, and fortunately so fastened itself upon both his pity and good graces, that it has now become the pet of our police station. "Tommie," this is his name, is loyal to every form of law and order. He no longer makes night hideous, as many another cat does, in the back yard of some Christian family which desires to sleep the sleep of the just. Tommie is continuously on his good behavior. He evinces no disposition to run after strange cats. He is to be found at home during the 24 hours of each day, and this too every day in the week. No cat of wandering disposition, or cur of low degree can enter the police station so long as Tommie is around. When Hey! wood wrote that "a cat may look upon a king," he must have had in mind just such a cat as is Tommie.

Made Her Father Governor. Mr. Young and some friends had

been discussing the political outlook in Kentucky at Mr. Young's house in Louisville one night, just on the eve of the Democratic state convention, several years ago. When the party broke up, Mr. Young's daughter, then about 18 years old, now married, who had been an interested listener during the discussion, spoke up:

"Why don't you run for governor, have noticed that beautiful maltese cat

"Why, my child, they would never think of me for that office. No one eares enough about me for that."

"But, pa, would you accept the nomination if it were offered you?" "Why, of course I would; nobody

would refuse the honor." Miss Young said no more at the time, but quietly slipped out of the house and started in the direction of The Courier-Journal office, Colonel Henry Watterson being an intimate friend of the family. It happened that she met the veteran editor in the street.

"Ah, Uncle Henry, will you do me a favor?" the young woman asked impulsively.

"Anything in the world that I can do I will."

"Well, I want pa to be governor of Kentucky, and can you get him the

Colonel Watterson turned back to the office and sat down and wrote a spirited editorial, demanding in the interests of the Democratic party that John Brown Young be nominated by the convention soon to meet. The result was in accordance with the noted editor's wishes, Mr. Young's election being a foregone conclusion.-Chicago Chronicle.

Good and Bad Eels. "So you think that little eels are sweet and that big eels are rank and strong, do you?" said a fish dealer. "Well, you're on. It isn't the size of the eel that governs his taste. It is his habitation and way of life. But most people think as you do, and throw away the big eel and cook the little one, and then, if the little fellow is strong, they think it is because he wasn't little enough. Nothing could be further from the truth.

"The eel that inhabits a stream with a hard, clean, sandy bottom is sweet and edible, be he as big as your leg or tiny as your finger, for this eel finds food scarce, and he must exercise and keep sober and hustle-else he will starve-and this active career makes him healthy and wholesome. But the eel that lives in the mud, where provisions are plentiful, is unfit for the table, for his life is sluggish, his habits and organs are bad and his flesh, when cooked, tastes and smells of the muddy element. That is why the Schuykill eel is worse than carrion for table purposes, while the eel of the upper Delaware makes a dainty dish."-Philadelphia Record.

More Miles Than You Can Count. Statements as to the distance of the pole star from the earth which have appeared in some of the newspapers lately have been ridiculously inadequate. One of the estimates made is 255,000,000 miles. Now, if one will remember that the sun is 93,000,000 miles away and that its light comes to us in eight minutes, he will see that if the foregoing estimate of the distance of the pole star were right its beams could reach us in about 15 days. It would be only about 2,700 times as far off as the sun.

Light travels 6,000,000,000,000 miles in a year, and even the most modest guesses as to the parallax of Polaris make it 35 light years. Pritchard's estimate in 1887 was 90 light years, but he has since modified his figures. Hence, if one will write 210 and add 12 ciphers thereto he will have the number of miles which the most conservative authorities believe intervene be tween the earth and the pole star .-New York Tribune.

Shakespeare's Father.

A paper entitled "Shakespeare and Sanitation" was read at the recent provincial meeting of the Incorporated Society of Medical Officers of Health at Stratford-on-Avon. Among other things the author related the following: "It is interesting to find that the name of John Shakespeare, the father of the poet, first appears in the records of the municipality as owing a fine of twopence for having made a dirt heap with his neighbors, Adrien Quincy and Henry Reynolds, in Henly street, and on another occasion he 'stood amerced' in fourpence for failing to keep his gutter clean."

None Better Than All. Miss Gingham-And I suppose they have bargain days in Glasgow, Mr. McIvor?

McIvor-Ma conscience, no! It wad na do ava! Miss Gingham-Indeed! Why, I thought bargain days would just suit

An Unexpected Answer. In the course of an address Dr. Conan Doyle told a quaint experience of his in the Sudan. Wishing to find out whether one of the black soldiers was a Mohammedan or a pagan, he asked him. "Whom do you worship?"
"I worship my colonel," came the an-

swer, pat.

The lessons of history would suggest to a Sherlock Holmes that the man was a Mohammedan.

The new Arlington Heights Baptist TO THE EDITOR; In your last issue you published a paragraph under the Heights news, referring to frequent fights by boys of the Locke school. It is nothing new to hear of schoolboys fighting. Boys fight with each other one day and are the best of chums the next day. Their parents tell them not to fight, but where will you find a boy who will stand by and allow another boy to strike him Can the parents go with them to and from school? As to families being annoyed by frequent quarrels, I think that if they did not want to see them

We gladly publish the above from one of the prominent fathers at the Heights. Governer Theodore Roosevelt of New York says the boy that wont fight is of but little account, and the Governor goes so far as to allow a brutal prize fight in his state without lifting a finger to prevent it. These two questions were discussed in the form of questions asked, which were answered from the platform. At this point the audience was entertained by a baritone solo, by Mr. Charles Pierce. Following the solo came the consideration of the questions "Cannot you personally support a representative on the mission field?" Cannot your society?" "Cannot a group of societies of the same denomination?" The discussion was conducted by Fred M. Gilbert of Boston. An interesting letter was read by Miss Emma F. Dogs Growing Weaker.

Experts agree that the life of a dog is shortened by close breeding and exhibition and that we are gradually raising dogs that will not be so long lived as the semiwild mongrel types.

The best thing to be done when evil comes upon us is not to resort to lamentation, but to act; not to sit and suffer, but to rise and seek the remedy.

Chicago's Queer Indian.

An Englishman of rank and money visited Chicago recently and with him came his private secretary, a young, fresh faced, jolly fellow just out of Oxford university. The secretary brought letters of introduction to a Chicago man from a well known London actor and an equally prominent man of letters. The Englishman came direct to Chicago, making no stop in New York. The secretary called upon the Chicago man to whom he had letters and who did a little entertaining, inviting three city friends to meet the private secretary at luncheon at a noted restaurant. It was after the cigars were lighted

that the conversation turned upon things American. The Chicagoans knew that the Britons were credited with believing that they could shoot buffaloes under the shade of the Auditorium and shoot grizzlles along the Shokle, but they were not quite pre pared for what was to come. The lit-tle luncheon party had been waited upon by a coal black negro with crisp hair curled tight to his head. The retary throughout the repast had eyed the attendant with interest. When the waiter finally had left the room, the English guest turned to his host and

Washing Out the Stomach.

Within recent years those physicians who have made a specialty of diseases of the stomach have become convinced five-minute papers were read by Miss that the only satisfactory method of treating a great variety of stomach troubles is by washing out the stomach. This little performance is carried out by means of a flexible soft rubber tube, swallowed by the patient. At the other end of the tube is a rubber funnel, and when the stomach by the discussion, conducted by the tube has reached the stomach warm water or some medicated fluid is poured in, and the stomach is subjected to a thorough cleaning.

Disagreeable indeed the process is at first. Indeed, for the first few times of the introduction of the tube the patient has often to be held down forcibly to his seat. Then, curious to state, the dyspeptic gets used to the stomach tube and even begins to like it. The cranks express such a longing for it that long after they are cured of their trouble they go on using the stomach pump once, twice or even three times a day. They haunt the physician's office and become his bugbear during his office hours. Then finally, when the medical man puts his foot down and flatly refuses to pass the tube any more, they procure a stomach pump for themselves and use it before a looking glass.

Table Manners In Old France. Could we restore for half an hour the dinner table of old France and obtain half a dozen instantaneous photographs of a royal banquet at any era between the reigns of Francis I and Louis Quatorze, such a "cataract of laughter" would be heard as might

The duchess, her napkin tied securely round her neck, would be seen mumbling a bone, the noble marquis surreptitiously scratching himself, the belle marquise withdrawing her spoon from her lips to help a neighbor to sauce with it, another fair creature scouring her plate with her bread, a gallant courtier using his doublet or the tablecloth as a towel for his fingers and two footmen holding a yard of damask under a lady's chin while she emptied her goblet at a draft.

During a feast of inordinate length it was sometimes necessary to substitute a clean cloth for the, one which the carelessness or bad manners of the guests had reduced to a deplorable condition .- "An Idler In Old France," by Tighe Hopkins.

Appalling Brutality.

Miss Slessor, Scotch missionary, who has been 24 years in Africa, has herself saved the lives of over 50 twins. When twins are born, they are at

once taken from the mother, and if no one intercedes they are at once taken by the feet and head and have their backs broken across a native woman's knee, in the same manner as one would break a stick. The bodies are then placed in an earthenware receptacle and taken to the bush, where they are devoured by the flies, insects or animals. Sometimes the little victims are put into these receptacles alive and are then eaten alive in the same way.

The mother becomes an outcast. If she does not at once take her own life, she has to flee to the bush. If she ventures near the town or village, she must see that she does not remain on We told you that Admiral Dewey | the path when any other native is comwe know it, or otherwise he wouldn't superstition, would defile the place for others. > California's Shark Oil Industry. The making of shark oil is the important industry of McGarvin's Cove. near Riverside. The process of manufacture is decidedly primitive. The sharks are caught in every imaginable way, by bait and hook, but principally with the seine. The livers, which contain the oil, after being taken from the fish, are rendered out in cans set over a brush fire, reminding one somewhat of the process of obtaining the oil from whale blubber. The oil is then put into casks and shipped to Los Angeles.

The coarser grades are used in the making of tarpaulins and other oiled cloths for use aboard ships, while the finer grades are put into the so called cod liver oil of commerce. The sharks average from 10 to 25 cents' worth of oil apiece, and a day's catch usually nets about \$40.-Riverside Press.

Isolated People of the Earth. The people who live in the northern portion of the peninsula of Kamchatka are probably the most isolated in the world. The people have practically no communication with others than their own tribe, being seldom visited by travelers.

The inhabitants of the New Siberian islands are also detached people, for they can only communicate with the mainland once a year even if the weather is favorable.

The pygmies of the great central African forests, if they can be called a tribe, have also been a people apart. For ages their existence was little more than legendary, and only two expeditions commanded by white men have ever penetrated into their abode.
